

## SOLUTIONS FOR BETTER BUSINESS GROWTH

**Farahat & Co.**, know that people are our greatest asset. Our qualified team of professionals represents an extensive knowledge base, with broad experience in Auditing, Accounting and Ancillary Related Services (Compliance Services, Bookkeeping, Business Registration and Anti Money Laundering etc). Affiliated with **Farahat & Co.**, a practice of Chartered Accountants and Business Advisers with over 25 years of history in the UAE, our longstanding reputation is built on our guiding principles of integrity, independence and professional excellence.

We are proud to help business owners by creating, enhancing, and preserving their wealth throughout their company's life cycle by applying a high level of technical skills combined with professional knowledge and a sincere commitment to personal relationships.

The face of financial services is constantly changing and at **Farahat & Co.** we realise that technology, qualifications and research assist us in keeping ahead of the rest

## ACCOUNTING & BOOKKEEPING

**Farahat & Co.** offers a full array of accounting and financial reporting services to meet the diverse needs of various types of businesses. Our dedicated professionals gain a deep understanding of the management and financial issues facing a business. We bring an entrepreneurial spirit and vision to help strategize solutions, take advantage of opportunities, and optimize benefits to help our clients move forward confidently and successfully into the future. Our array of accounting and financial services include:

- Bookkeeping Assistance
- Compilations of Interim & Financial Statements
- Trend Analyses
- Special Financial Reports
- Budgets
- Forecasting and Projections
- Internal Control Implementation
- Profit Planning and Cash Flow Projections
- Financial and Business Planning
- Implementation of Accounting System
- Payroll System and Labor Reports for Ministry
- Public Accounts Negligence
- Financial Analysis

**Farahat & Co.** takes great pride in its design and the method in which accounting and financial information is presented. Both internal and external users are now presented with a simple way to understand financial information, while still maintaining current standards of financial reporting and other statutory regulations.

We ensure that the Financial Statements are comprehensible and notes are written in a consistent manner to explain the important aspects of the financial position and operation results of the company and that these are in line with applicable standards and regulations.

## AUDITING & ASSURANCE

The core services are the audit and assurance, which we believe are more than an outline compliance exercise. It enables our professionals to review your financial operations and make constructive suggestions about improvements and practices that will enhance your business performance. This will also help us to identify potential risk factors and help the management to control those factors.

Auditing and Assurance assignments enable our professionals to review your financial operations

### BUSINESS MANAGEMENT & CONSULTING

The Consulting Division at **Farahat & Co.** works closely with business executives to foresee and resolve strategic, operational, and financial issues. Our team approach focuses on the knowledge and resources of staff with diverse backgrounds and varied skills. When necessary, our Consulting Division can charter an additional pool of pre-qualified outside consulting specialists with the required skills to join a virtual team, for nourishing the engagement requirements successfully. This strategy strengthens our ability to assist our business clients in creating and implementing smart business decisions.
